

ELE Benefit Summary

Designed for forward-thinking talent leaders exploring what's next

Welcome to ELE

TALENT INTELLIGENCE COMMUNITY

Peers co-creating practical approaches to talent development — spanning HR, business, and change leaders — to architect the workforce, worker, and work itself.

[Join the Community - Sign Up Now](#)

An invitation-only community for senior and fractional HR/Talent/Change leaders co-creating the future of work.

The unique pulse of our robust hybrid community is amazing in-person experiences (since 2002) amplified by ELE's newer Digital Hub — accessible on desktop or mobile — where we've pivoted to enable members to:

- Connect on their own timeline with curated peers.
- Share challenges and practical, cross-company solutions in real time.
- Network through livestream video discussions or direct messages.
- Catch up on replays and Q&A whenever it fits their schedule.

By engaging in these exchanges, you gain **leading-edge insights from early adopters and innovators** — helping them act faster, make smarter talent decisions, and bring proven ideas to market ahead of **the curve in today's ultra-complex business environment and volatile workplace.**

Your contributions automatically build your ELEfolio — a living portfolio that grows your visibility and credibility with every exchange.

"The best development you'll ever get!"
